On Sunday June 28th 2026, the Herefordshire and Mid-Wales section of the VMCC, will organise **Herefordshire on the Edge 2026** an enjoyable, non-competitive, long distance event, designed to challenge entrants' riding and navigation skills and to test their machines over a wide range of surfaced roads. The event will be held under these Regulations and any subsequent instructions that may be issued prior to the start. The 10th running of this unique event provides entrants the opportunity to explore some remote and beautiful corners of one of Britain's most scenic, historic but least visited counties.

The locations of the 28 waypoints spaced at roughly 6 mile intervals around the borders of Herefordshire will be published two weeks before the event, in the form of post codes, "what3words", 10 figure OS grid references and decimal Latitude and Longitude. Riders should plan and follow their own route to visit a sufficient number of these waypoints in order to achieve either a bronze, silver or gold award. Codeboards will be displayed clearly at each waypoint. Proof of passage is established by recording the codeboard information on a route card, which is given to entrants when they sign on at the start.

Four **additional** waypoints (including the start/finish) will be designated as Cardinal Points. To qualify for any award, entrants **must** visit all 4 Cardinal Points (North, South, East and West). The Cardinal Points, are designated rest stops where entrants must dismount from their vehicles. Entrants must spend **at least 30 minutes at one of these stops**. Failure to comply will result in disqualification. Proof of passage at the Cardinal Points will require route cards to be punched with an orienteering punch which will be located at the Cardinal Point. All of the Cardinal points serve food and drink. Your custom would be a great way of thanking the owners for their assistance.

Entrants may use any appropriate equipment to plan and follow their route (i.e. Satnavs are allowed).

There will be no prescribed route. This is not a treasure hunt, our aim is to make these waypoints as simple to find and record as possible. The event is not timed, although any entrant deemed to have exceeded an average speed greater than 26 mph will be excluded from the awards. The shortest route visiting all 4 Cardinal Points and 22 waypoints (Gold Medal standard) will be around 160 miles. Final route details and code board locations will be sent electronically 2 weeks before the event and will also be available at the start.

Event newsletters will be published from time to time in the run up to the event, which will update these regulations and provide other helpful information to entrants.

These regulations, along with 2026 entry forms plus reports, photos and results of previous events can be found on our Section's website
